Cykelslangen Foot & Cycle Bridge. Application of 1000m² Maticryl WS.

Hisingsbron Bridge, Sweden

Maticryl combined waterproofing and anti-skid wearing course was applied to the bridge deck by strategic local partner DAB.

BECAUSE WE CARE...

We are passionate about first class customer service, as we know it leads to and creates long term working relationships. Our primary goal is to ensure USL Speciality Products find a suitable, reliable and proven solution and that you receive unrivalled technical support, before, during and after installation.

SERVICES

Our Technical teams are available to answer your questions by telephone or online and to support you with your project, by providing expert guidance and advice on site. With an enviable level of industry experience, we will recommend and specify the correct product for your application.

SEMINARS & WEBINARS

We offer a comprehensive range of Professional Development Seminars & Webinars suitable for Engineers, Contractors and other civil engineering and construction individuals.

MANUFACTURING

Over 50 years experience in multi-technology manufacturing of construction chemical products. These include Polyurethane, Epoxy, MMA, Cementitious or a combined blend.

LAB & QUALITY CONTROL

USL place a heavy emphasis on ensuring we meet today's standards. This includes ISO 9001 and accreditations to independent bodies including BBA and BSI. This demonstrates compliance in today's challenging workplace and illustrates the ability to adapt for current and future demands.

TECHNICAL & SITE SUPPORT

Through our technical department and laboratories we can offer a comprehensive service to specifiers and contractors. Technical contacts are available to provide further information and arrange demonstrations

USL Speciality Products has evolved into a leading niche manufacturer with a unique basket of products, specifically focused on infrastructure projects.
